

Dear \_\_\_\_\_,

I hope this finds you doing well in the Lord's grace.

I am sending this to you as you are an important leader with regard to God's purposes and this nation.

We have no doubt that America stands at a most crucial moment in its history with regard to its departure from God, its moral and spiritual descent, and concerning national judgment. God is the only hope. And prayer, repentance, and return are critical.

Thus, we have been led to call for a day of prayer and repentance on the 12th anniversary of September 11 – to be known as 9/11 Pray: National Day of Prayer and Repentance – this according to the pattern of 2 Chronicles 7:14. The Day of Prayer events in New York City and Washington, D.C. will include Members of Congress, Christian leaders, and all of God's people throughout the land who are led to pray for America.

We have been praying and seeking for God's leading as to which leaders to write this to – and we were led to write to you.

The purpose of this letter is very simple – to ask you for your 'amen' and to be part in helping this happen for the sake of our nation however you're led. There is no great organization involved, it is not limited to any group or denomination or person, it is open to all believers, and has no agenda except to humble ourselves, pray, seek His face, in repentance, and to pray for the future of our nation.. It is simply the Lord moving on many leaders and believers that has brought this about.

Among those initiating the call and participating are Greg Laurie, Chuck Norris, Joseph Farah, Jonathan Cahn, Representative Michele Bachmann, Carman, Promise Keepers, and many, many more ministers, pastors, leaders, and believers across the nation.

We can provide different possibilities of how you can be part, again as you're led – including a quote from you that can be used in spreading the word and calling God's people to prayer.

Right now, if you can just let us know that you are on board, in agreement with the national call for prayer, by replying with an e-mail to that effect or a 'yes' so that we can include you among those who agree and support this call to God's people.

Thank you and God bless you!
